

MOBILE BOX

Watergen Mobile Box all-in-one solution generates fresh potable water anytime, anywhere

Get water anywhere you need it with Watergen Mobile Box. It's a small, portable and independent unit that processes and purifies the air and converts it into fresh drinking water.

Watergen Mobile Box provides up to 25 liters of fresh drinking water generated from the air. No need to carry plastic bottles or search for an available water supply.

Watergen Mobile Box is lightweight, portable, and can be taken anywhere, whether in a car, RV, campervan, or bus. Powered by 12V. Watergen's innovative, patented Atmospheric Water Generation (AWG) technology generates fresh, healthy water from the air.

Watergen Mobile Box automatically produces clean drinking water for those on weekend road trips, long-haul truck drivers, campers, RV travelers, and even personal at-home use.

Watergen Mobile Box reduces the need for plastic bottled water, offering a sustainable alternative for clean, drinkable water wherever, whenever.

MOBILE BOX Advantages

Fresh and safe drinking water from air

Produces up to 25 liters of drinking water each day

Off-the-grid solution, no plumbing needed

Simple and easy to transport

Sustainable solution, reduces plastic waste and carbon footprint

Removable internal water tank

Water production is at the point of use

Complies with international drinking water safety standards

MOBILE BOX

Specifications

Water generation capacity	Up to 25 liters / 5.5 gallons a day
Water dispensing	Ambient
Dimensions (LxWxH)	63cm x 45cm x 51cm/25.2" x 18" x 20.4"
Weight	30kg/66 pounds (dry)
Voltage	12V
Peak power consumption	480W
Average power consumption	350W
Air filtration	Sub-micron barrier filter that eliminates <2.5 particulate matter
Water purification	Multi-step filtration cascade combined with high-end treatment technologies followed by a germicidal UV lamp. Vital minerals balance the water pH to achieve high purification and tasty drinking water.

Applications

Pickup Trucks

Camping Overland

RVs, Caravans, Motorhomes

Outdoor Workers

About Watergen

Watergen has devoted its innovative technology towards solving the world's water crisis under the leadership of its president, Dr. Michael Mirilashvili. Watergen provides a game-changing water from air solution based on its proprietary patented GENius technology that uses humidity in the air to create clean and fresh drinking water for people everywhere. The company offers a range of Atmospheric Water Generators (AWG) for various applications; the home-office scale GENNY that can produce up to 30 liters of drinking water per day, the medium-scale GEN-M that produces up to 800 liters of drinking water per day and the industrial, large-scale generators that can make as many as 6,000 liters of drinking water per day. Watergen's AWGs are installed in more than 80 countries around the world.
